91st DIVISION REUNION SEPTEMBER 24-25

If there are any members of the 91st division residing in Sierra Madre, they are invited to leave their names at the News Office or send them to 1111 Central Bldg., Los Angeles. An effort is being made to get all the men together in this locality for the reunion to be held in Los Angeles September, 24-25.

GARBAGE WILL BE GATHERED

Through the efforts of City Engineer Mackerras and Chief of Police Udell, arrangements will be made for the gathering of the garbage in Sierra Madre.

Mr. Antonio of Monrovia who operates the Monrovia hog ranch and who gathers the garbage in Monrovia, made a proposition to the Sierra Madre Board of Trustees which has been accepted and the agreement will be signed at the next meeting, July 28. It is proposed to gather the garbage on Tuesday's and Saturday's. Those who want collections made must furnish a covered garbage can and place the can on the curb on collection days. If you do not want your can to sit on the curb, arrangements will have to be made with Mr. Antonio.

There is nothing compulsory in the new arrangement. It is a matter of convenience and sanitation and it is hoped that those who have had difficulty in disposing of their garbage will avail themselves of this opportunity.

INSTALLS ANOTHER PUMP

The Sierra Madre Garage has installed another Aero Gas Pump. This makes a battery of three pumps for this garage which is a complete asset to the efficient curb service this institution maintains.

The Trustees of the public school are advantageously using the vacation months to have some much needed repairs done as well as some improvements made, in the various buildings and on the school grounds. Partitions are being removed in the Domestic Science building preparatory to using it for a temporary class room.

The furnaces in the older buildings are being replaced by modern gas furnaces and cement floors are being laid in the hallways of the main building. Storm drains are being built in the yard and drinking fountains moved from the patio to the school grounds. The Trustees plan to have the buildings ready for occupancy when school re-opens in the fall.

LUCK OF THE ROAD

O beautiful for spacious skies,
O'er fields of amber grain,
For purple mountain majesties
Above the fruited plain."

Monday July 11th Miss Katharine Post Ferris of Sierra Madre and Mrs. Frank S. Jones of Long Beach returned triumphantly to 385 West Central Avenue from a hiking trip to San Francisco and back. Scorning to wait for the electric car at Lamanda Park they strode along the foothill boulevard until the end of the journey.

The start was made from Long Beach at seven a. m. June 20th and with the aid of friendly lifts ranging from Ford truck to Cadillac Sedan they rolled into Santa Barbara in less than six hours. From there it was just a continuous revelation of wondrous kindness and consideration all along the way, but the cream of the trip was when, on leaving the main highway at Jolon they struck west to the coast by trail and road.

There are the memories of open doors and warm welcomes over night at many isolated homes, and once a camp; of roast pork an dgarlic, of freshly caught trout suppers and fried abalone. There returns too, the fragrance of pinks and sweet peas in unexpected old fashioned gardens, or rides on rock crushers and friendly horses.

Many a time they were speeded on their journey by the host acting as guide through tangled trails. In one camp a worn shoe was mended on an improvised last that it might speed on to San Francisco, no kindness was omitted.

Near big Sur was nestled a home amazing in its exquisite store of art treasures. There were surprises all along the way of sea and sky, of rocks and ferns and redwoods, but best of all great draughts of health and inspiration in God's great out of doors.

Berkeley was reached July 3, and after a weeks rest the tramp home on the main coast highway was covered by foot and wheel in three days.

NEW LAW GOVERNING RENT-ERS OF SAFETY DEPOSIT BOXES EFFECTIVE AUGUST THIRD

The California State Safe Deposit Association in a circular just issued call public attention to the new amendment to the California State Inheritance Tax Law which goes into effect August 3rd, 1921, and applies to storage or safe keeping of packages as well as safe deposit boxes. The amendment to section 13 of the law provides that:

"Upon the death of any person who at the time of his demise had the privilege of access to a safe deposit box, the opening of such box must be restrained until it is examined by a representative of the State Controller."

The following letter from John W. Carrigan, Assistant Inheritance Attorney, further explains the provision of the amendment.

I take pleasure in writing and giving you my interpretation of the new provisions which have recently become a part of the new law of this state, in connection with the rental of safety deposit boxes. The procedure may be designated by a series of acts, as follows:

1. Application to the bank for rental.
2. If the renter desires any person other than himself to have access to the box, agreeing that upon the death of either or any one of such persons, notice of the death of such person will be immediately conveyed to the bank by the survivor.

3. The notice of such death shall be given the bank before the survivor or survivors seek access to the box.

4. The bank, upon receiving such notice, shall thereupon refuse all persons access to the box until the consent of the State Controller is given to the bank.

5. It shall be unlawful for the bank, after receiving notice of the death of any person, to permit access to the box until the consent of the Controller is secured.

6. The law says any "other person having access." This provision includes the renter and likewise such person or persons as the renter may have granted the privilege of access or such person or persons as may be silent partners in the rental and occupancy of the box.

7. The penalty prescribed by the act in the event of its violation, is now applicable not only to the bank, but also to the renters and all other persons having access to the box.

JOHN W. CORRIGAN,
Asst. Inheritance Tax Attorney.

JACK NORWOOD GOES TO VANCOUVER

Jack Norwood, who left Sierra Madre a week ago, has arrived in Vancouver. He came out of the hospital in Los Angeles in a weakened condition, but word from him says that he is feeling some better and will recuperate for another operation soon. He is an ex-service man, having been with the Canadian forces throughout the war. He was wounded several times and has had nine operations for the removal of shrapnel since his discharge. His next operation will be a very delicate one, it being necessary to remove parts of two ribs on the left side in order to get to the heart, a small portion of which will be removed.

The Story of Our States

By JONATHAN BRACE
XLVIII.—TERRITORIES

"THE Story of our States" would not be complete without a brief mention of the other territories of the United States, which is not included in the actual forty-eight states. The biggest of these territories is Alaska, with an area of 580,884 square miles. This huge region was under Russian domination until 1867 when the United States purchased it for \$7,200,000, or less than two cents an acre. There was some grumbling at the time by a few congressmen over "adding a refrigerator to the United States." But the refrigerator has been found to be well stocked with gold, coal, forests and fisheries, so that Alaska has proven a profitable investment.

Hawaii, like Alaska, is a regular territory. In 1893 there was a successful revolution against the Hawaiian queen, and a provisional government was formed under American protection. In 1898, at the request of the population, Hawaii was annexed to the United States.

Porto Rico, Guam and the Philippines were ceded to the United States in 1899 as a result of the Spanish-American war. Porto Rico and the Philippines are dependencies and not territories. Their local affairs are administered by a legislature of two houses and they are represented in the United States by resident commissioners elected by the legislatures. Guam is under the control of naval officers in command of naval stations. Under similar naval control are the Tutuila group and Samoa, which were ceded in 1899 by Great Britain and Germany.

Then there is the Panama Canal Zone, which was purchased from Panama in 1904 for \$10,000,000. This is governed by the Isthmian Canal commission.

The year 1917 saw the purchase from Denmark of the Virgin Islands, for \$25,000,000. These aggregate only 150 square miles and are temporarily governed by a naval officer.

Finally, there is the District of Columbia, which was organized in 1791, as the seat of our federal government. The residents have no vote for either local or national officials, nor are they represented in congress.

THE MINISTER'S SHAVE

A minister, who was none too careful in his habits, was induced by his friends to take the teetotal pledge. His health appeared to suffer and his doctor ordered a glass of punch daily.

"Oh," said he, "I dare not. Peggy, my old housekeeper, would tell the whole parish."

"Then," said the doctor, "shave at night, and when Peggy brings up your hot water you can take your glass of punch just before going to bed."

The minister appeared to improve in health and spirits. The doctor soon after met Peggy and said: "I'm glad to hear, Peggy, that your master is better."

"Indeed, Sir, he is better, but I fear his brain is affected; there's something wrong with his mind. He used to shave regular at night before going to bed, but now he's shaving after breakfast, after dinner, after supper, he's aye shaving!"

RED CROSS APPEAL FOR USED CLOTHES

The American Red Cross is conducting an extensive campaign for used clothing to be sent to Central and eastern Europe for the children. The need and suffering there are beyond description and we are asked to give anything that has sufficient wear left in it to justify the expense of shipping.

The Sierra Madre Red Cross Chapter has selected Wednesday, July 20th as "Used Clothes Day." Boxes and baskets will be at prominent places down town and you are asked to bring all you can and place in these collection boxes. Anything serviceable that is clean. If you are unable to take your donation downtown, notify Exchange 2 or Black 100, and it will be called for. Old blankets and spreads that can be made into wrappings for new born babies are much needed.

A Red Cross Workshop will be opened at the residence of Mrs. J. H. Wright, 266 E. Montecito, for the sorting and remarking of these garments during the balance of July and August. Volunteers to help with this work are urged to send in their names as soon as possible as all this work must be completed and the goods shipped by the first of September. It is hot in Sierra Madre now, but by the time this clothing reaches the needy little ones, they will be freezing. Don't let any question of personal discomfort keep you from helping with this work. The hot weather makes us all feel like shirking anything we can, but try to imagine the children you love in the dreadful condition these children are in, and the hot weather won't stop you. A little heat is nothing to what the mothers in those lands are enduring.

It is difficult for us here in prosperous America to grasp conditions in those lands so far away. We talk about hard times and high prices, but in those lands no price, not even sacrifice of life itself, can buy bare necessities for these children, for there are no clothes—there isn't any cloth to be had. They are dependent on what America can send. It is hard for us to understand but these countries haven't "come back" since the war because they have nothing to come back with—no materials, no tools, no factories, no money no food. The Red Cross has stopped relief work among the adults and is devoting its entire attention to salvaging the children and the expectant mothers. The need for clothes is endless. As one worker writes, what is the use of cleaning and giving medical aid to the poor little bodies and then being forced to put back the filthy, rotten rags that pass for clothes.

No naked, suffering child found on a Sierra Madre doorstep would be passed by and neglected—no newborn baby here is wrapped in old newspapers for lack of soft cloth. Don't neglect these suffering children because they are overseas. Act as you would if you could see the suffering little bodies and hear the pitiful crying. You are not asked for money, but for a little time and a little work and your old clothes.
